## **Topic: Seitai Exercises and Seitai for Women**

Seitai aims to bring out Ki, the original life-sustaining power within each individual. Through these unique, specially created exercises, the very origin of a symptom is readjusted to start the healing process. Power is already in a person to restore and sustain life and health. Through Seitai exercises this power is accessed and maintained to awaken the majesty of life within.

**Kazemaru Yukawa, Seitai Coach** will be at the

Expo to demonstrate and explain Seitai exercises. Kazemaru was trained by her Japanese father in martial arts and Zen meditation from an early age. In 1986 she qualified as an instructor in Aero-box (Aerobics and martial arts combined). Between 1992 - 1999, she was trained as an apprentice by Master Imoto Sensei, in the life style and practice of Seitai, at the Imoto Seitai Education & Development Centre in Tokyo, Japan.

**Kazemaru is available for individual and group Seitai Sessions in Hilo,  
Hawaii, 20 Sept-12 Dec 2006.**
